Dear Mr. Phiefer,

Thank you for your input regarding S2302, which would license landscapers. I have met with constituents who are representatives of your industry about this bill. At this time, I am opposed to S2302.

As for your other questions, all citizens are able to testify at Senate State Government Committee Meetings, and there is an email alert system on the New Jersey Legislatures website. This alert system will send you an email if and when this bill is scheduled to be heard in committee. I urge you to utilize this useful service and to come to the meeting to express your views.

Sincerely,
