

February 2012 NJLCA Membership Meeting

Thursday, February 9, 2011 – 6:00 PM

**Location: Canete Landscape Garden Center
825 Black Oak Ridge Rd., Wayne, NJ 07470**

Join us for a Facility Tour of Canete Landscape's operations, warehouse, and grounds

Canete Landscape

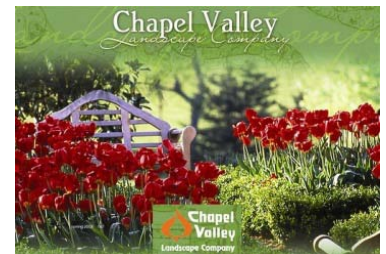

On this facility tour, you have the unique opportunity of seeing a large and diverse company delving into the many aspects of landscaping and snow removal. See everything from his design office, equipment, operations center and garden center. For over 25 years, their team of award winning design/build experts has been on the cutting edge of the Landscape Construction Industry as well as the Snow and Ice Removal Industry.

Plus, two virtual Facility Tours of Jacobsen Landscape Design and Construction and Chapel Valley Landscape Company

Learn the secrets behind their operations, personnel, and business strategies during this virtual presentation provided by PLANET and Lawn & Landscape Magazine.

Chapel Valley Landscape Co.

Offers unparalleled design, installation, and maintenance for both residential and commercial properties in the Maryland, Virginia, and Washington, D.C. Chapel Valley has developed distinctive, award-winning landscapes that have been the hallmark of the company's commitment to creativity, quality, and service. Chapel Valley is a leader in maintaining its facilities in an environmentally friendly manner. By recycling its vehicle waste oil to heat offices, performing preventative maintenance on vehicles and equipment, direct shipping materials to job sites to reduce fuel consumption, recycling runoff water to irrigate inventory plants, and upgrading technology to reduce paper waste, Chapel Valley is a model of sustainability with plenty of green practices to share

Jacobsen Landscape Design & Construction

Located in three distinct facilities within a 1/4 mile of each other, Jacobsen Landscape Design and Construction has more than 30 years of experience committed to providing complete landscape services of exceptional value. Tour the most unique facility, the design center and administrative office, which house the outdoor displays for customer presentations. Take a virtual step inside the construction/irrigation installation production yard, where Jacobsen runs multiple construction and irrigation crews out of this tiny, one acre yard. See efficiency hard at work in the third facility featuring one acre and two buildings, the maintenance shop, including the sprinkler

service division, and property management office. You won't want to miss a peek behind the scenes at this efficient, green industry powerhouse.

Free Buffet dinner will be provided by the New Jersey Landscape Contractors Association

**Please RSVP with number of guests attending to (201) 703-3600
