Topics:

Maintaining Snow Equipment

By Keith Krehel, Krehel Automotive Repair & Gary Dwinal, Boss Snow Plows

A brief discussion on maintaining your snow equipment, opacity tests, and much more from these industry experts! In addition, a variety of Boss snow equipment will be on display and questions will be answered.

Computer Applications for Design/Build Contractors

Featuring Dynascape

By Jan-Marie Traynor

Still on the fence about computer aided design (CAD)? Afraid to commit? Not sure if using a computer to draw designs will work for you? Take this opportunity to see a live demonstration and presentation of computer drawn landscape designs, see the Dynascape software in action, and see what Dynascape can do to make your designing more efficient. If you are tired of making revisions to hand rendered drawings and have struggled with accurately calculating square footage for odd shaped beds take this opportunity to see how much easier those tasks are with Dynascape. Love to draw? Learn techniques for using CAD as a tool even if you love to hand render your designs.

Jan-Marie Traynor is the Chairwoman of the Landscape and Horticultural Technology Department of the County College of Morris. She holds a BS in Natural Resource Management from Rutgers' Cook College and Masters degree in Vocational Education from the Graduate School of Education from Rutgers. Jan-Marie is a Certified Nursery Landscape Professional, vice president of the New Jersey Nursery & Landscape Association, and a member of the New Jersey State Agricultural Education Advisory Board.

Free Buffet dinner will be provided by Krehel Automotive Repair.

Please RSVP with number of guests attending to (201) 703-3600 or gwoolcott@njlca.org.
