

Help NJLCA Get Rid of Local Town Landscape Ordinances!!

On July 1, 2008, Franklin Lakes was planning to introduce an amended ordinance to regulate landscape contractors, those who perform lawn maintenance, and snow plow contractors. The New Jersey Landscape Contractors Association is looking to compile information about all of the towns in New Jersey, and whether they require permits, charge fees, or accept the Home Improvement Contractors License in lieu of a permit. We are looking to our members to help us in compiling a list of town requirements so that we may attempt to help the industry in reducing some of these fees and requirements.

Please fill in the following information and return this form to the NJLCA as soon as possible. **You may fax this form to (201) 703-3600, mail it to NJLCA, 465 Boulevard, Elmwood Park, NJ 07407, or visit our website and fill out the form in our Legislative Survey section.**

We thank you in advance for any information you may be able to provide. This list will hopefully give us the chance to help you.

1. What towns are you aware of that require a landscaper permit, and if so, what fees are required, if known? If known, what are the requirements of these permits?

2. What towns are you aware of that will accept the HIC in place of a permit?

3. What towns are you aware of that CHANGED their ordinance to accept the HIC license in lieu of a permit?

4. What towns are you aware of that have dropped licensing requirements?

5. Is there anything else interesting you have seen in towns regarding licensing that we should know about?

(If you need additional space, please attach an additional sheet of paper)
